## Far-Reaching Dimout Ordered

## Fuel Crisis Grows In United States

By HAROLD W. WARD

WASHINGTON, May 9.—(AP)—The industrial stagnation settling swiftly over the United States because of the soft coal strike prompted drastic new steps today to conserve fuel, including a dimout of the thickly-populated east and mid-west.

THE CIVILIAN production administration urged electric power utilities in coal-burning areas east of the Mississippi and those in Missouri and Minnesota to ration electricity in progressive stages, starting with a blackout of theatres to a blackout of all but essential services.

Another order prepared for issuance, probably today, would authorize the rationing of manufactured goods.

## Declares Deadlock Must Be Broken

## Garson Warns Parley Failure Must Not Be Closed Matter

WINNIPEG, May 9.—(CP)—Premier Stuart Garson of Manitoba said in a 1,500-word statement released today after a two-day session of the Manitoba cabinet that Canada could not afford to allow the failure of the Dominion-Provincial Conference to remain a closed matter.

## Want All Facts

## Probe "Disposal" Of RCAF Goods

OTTAWA, May 9.—(CP)—Members of the parliamentary committee on war expenditures Thursday voiced their determination to obtain all the facts and figures in connection with the alleged destruction of surplus Air Force equipment on RCAF stations last summer and fall.

THE PRESS REPORTED the destruction of equipment in large quantities and in great haste. Reports, I think it is essential we get a statement from the Air Force," said D. Shaw (SC, Calgary West).

"I have a photograph of great piles of surplus articles having been destroyed at an Air Force depot," Thomas Reid (L, New Westminster) told the committee. He said he would produce the photograph at the next meeting Tuesday.

Air Commander R. A. London, director of equipment supply for the RCAF, promised to have a statement prepared on the matter for submission at the next meeting.

A. L. SMITH (PC, Calgary West) said he wanted a list of all material destroyed at Currie Barracks.

## Two 102 Street Lots Sell For \$24,000

Purchase by the Medical Arts Building Ltd., of two lots on 102 street south of Jasper Avenue, was reported Thursday, Jack Weber of Weber Bros. Agencies said for both vendor and purchaser.

The property sold is designated as 1000 102 street and is assessed at \$17,000 for the property and \$2,500 for improvements. A frame house and brick garage are located on the property.

It is understood that the Medical Arts Building Ltd. purchased the property to provide parking space for members of the medical profession who will occupy the building to be erected on the site immediately north of the Cenotaph which was purchased recently from the city.

## Lay Off Miners

DULUTH, Minn., May 9.—(AP)—A total of 2,600 iron ore miners are laid off by the Cleveland Iron Mining Company, a subsidiary of the United States Steel Corporation of the Mesabi range, because of this week-end because of the suspension of shipping facilities of iron ore from the head of the lake as result of the coal strike, it was announced today.

It is understood the government is reluctant to see the Senate take such action, fearing it may precipitate a quarrel with the house. Senator G. McGeer said this morning that he will propose a compromise amendment, that the name "Dominion Day" be changed to "Day of Canada Day." Whether this would satisfy the nationalist element in the house is doubtful.

## Air Repatriation

OTTAWA, May 9.—(CP)—Ten Dakotas of the Husky (No. 437) Squadron are expected to take off from Iceland this afternoon for Goose Bay, Labrador, where they will spend the night before commencing the latest RCAF aerial repatriation move to Ottawa.

QUALIFIED VETERINARIANS: Happy top-of-the-class graduates of the Ontario Veterinary College, Guelph, are Miss Judith C. MacLean (left) of Toronto and Miss F. J. Morgan of Kindersley, Sask., only girls in the graduating class. Miss Morgan won first prize for general proficiency, the OVC Gold Medal and a special prize in bacteriology. Miss MacLean won third prize for general proficiency. Dog was taken to OVC for treatment. Both girls will specialize in small animal work in the United States.

## If Plan For June Conference Rejected

## Byrnes and Bevin Map Strategy To Meet Russia on Peace Parley

By JOSEPH W. GRIGG  
PARIS, May 9.—(BUP)—Secretary of State James F. Byrnes and Foreign Secretary Ernest Bevin today conferred on what strategy to follow if Russia rejects the American proposal for a full dress peace conference in Paris, June 15.

FOREIGN MINISTER V. M. Molotov has the peace conference proposal under consideration and is believed to be consulting Moscow on the question. However, it was regarded as virtually certain that he will reject Byrnes' plan. Byrnes and Bevin conferred for three-quarters of an hour at Byrnes' Hotel Meurice suite.

Previously they had consulted with members of their delegations. Although the conference appeared to be on the verge of a break, down, definite plans for its conclusion were still in abeyance.

## As Paris Conference Fails Long-Feared Split of Europe Into Rival Spheres Is Near

By JOHN M. HIGHTOWER  
WASHINGTON, May 9.—(AP)—The long-feared split of Europe into rival Soviet-western spheres is close to an accomplished fact, diplomatic authorities said today, because of the failure of the foreign ministers' conference at Paris.

A FINAL FACTOR in the division of Europe into rival spheres is the next few days of support for state secretary Byrnes' proposal for long-range control of Germany—a proposal sharply assailed in the Soviet press.

Mr. Byrnes advocated a 25-year treaty among Britain, the United States, Russia and France to keep Germany from making war again. Russia immediately objected to the proposal and has continued to do so.

MR. BYRNES TOOK the treaty proposal to Paris in the hope that if all other methods of establishing peace failed, it would succeed.

THE U.S. Third Infantry Corps was one of the most celebrated of American forces in the final assault on Nazi Germany, having seized the Remagen bridge.

THE CORPS was commanded by Maj.-Gen. James A. Van Fleet and it was the 101st Airborne division that was relieved at Bastogne.

The airborne troops were under the command of Brig.-Gen. Maxwell Auliffe, who is remembered for his "Nuts to you!" reply to a German demand to surrender.

PRO-M LOUISIANA, Col. Edwards found the bitter cold of Moscow "tougher in many ways than combat overseas."

"In Moscow, however, you didn't have anybody shooting at you," he said. Maj. A. H. Jackman, another U.S. infantry observer, accompanied Col. Edwards on his tour.

The officers are staying at the Macedonian.

## Guilty of Murder

AMSTERDAM, May 9.—(CP)—Pie, John Merkle of Gravenhert, Ont., today was convicted of the murder of Sgt. Lou J. Stork of the Netherlands Air Force. The court's finding is subject to review and confirmation by higher authority and formal sentence will be promulgated.

## Nos. Four and Five to Be Detonated Next July

## Operation Crossroads Building Toward An Awesome Climax of Atom-Bomb Tests

By JOSEPH L. MYLER  
Exclusive to The Edmonton Bulletin  
ABOARD USS MT. McKinley, May 9.—(BUP)—Operation Crossroads, like a gigantic battery being charged with electricity, is slowly building up toward an awesome climax next July in the detonation of atomic bombs No. 4 and No. 5.

## Prosperity, Justice, Peace For All, States Churchill

AMSTERDAM, May 9.—(CP)—Winston Churchill today called for formation of a United States of Europe in an address to the Netherlands Parliament.

BRITAIN'S WARTIME prime minister said he saw "no reason why under the guardianship of a world organization there should not arise the United States of Europe, both of the east and of the west, which will unify this continent in a manner never known since the Roman Empire."

"It will give you prosperity, justice and peace," he told his applauding audience.

"These special alliances between nations, for by now, weakening the structure of the United Nations, should make the United Nations indivisible," he declared.

BRITAIN'S 20-YEAR treaty of friendship with the Soviet Union here today.

## On Corporations Drastic Tax Plan For Saskatchewan

REGINA, May 9.—(CP)—Failure of the Dominion-provincial conference would force Saskatchewan to tax corporations which make profits here and now pay taxes in the province where their head office is located, Premier T. C. Douglas said here today.

THE PREMIER said in an interview, it would be necessary to obtain a mandate from the provincial legislature before such drastic action could be taken. He returned by air from the Dominion-provincial conference at Ottawa and a two-day visit to New York.

"Mr. Drew boasted that the wealth of Ontario had been produced by the brains and virility of its people, but statistics prove that a good deal of its wealth has been produced by the brains and virility of the western farmer," the premier said.

THE TEST OF THE NEXT few months would be "whether the federal government is going to allow the small farmer to be squeezed out of the market."

The premier said seven provinces with the possible exception of Quebec, had agreed to increase federal taxes and it was now up to the federal government to make its decision.

Two alternatives were offered to solve the deadlock:

1. THE FEDERAL government should put its offer in a budget speech and make the agreement available to the provinces willing to sign.

2. The provinces should insist on another conference being called in an endeavor to work out an agreement for all if possible and for a majority if complete agreement is not possible.

Failure of the conference would tend to "Balkanize" Canada.

## Alberta Japanese To Be Repatriated

LETHBRIDGE, May 9.—(CP)—The first group of Japanese being repatriated to Japan from Alberta will leave Lethbridge May 25 and will consist of 880 men and women of the month, according to an official announcement made today by D. A. Archibald.

Most of the Japanese division of the federal department of labor, Mr. Archibald explained to the group will consist of 35 families and number 95 persons.

OTTAWA, May 9.—(CP)—Approximately 1,500 Japanese returning to Japan from Canada voluntarily, will leave late this month, Labor Minister Mitchell today informed the Commons. Mr. Mitchell said one group of 880 was due to leave May 22, and the remainder of 900 would leave about the end of the month.

Save Children  
BERN, Switzerland, May 9.—(Reuters)—The Swiss government has decided to release 10,000 tons of food for distribution to undernourished children in Europe as part of its "Save 1,000,000 Children" campaign.

Canadian bill of rights. Page 3.

## Gardens Hit by 9 Degrees Frost

A sudden drop in temperature from 62 degrees at 11:30 a.m. Wednesday to 46 at 1:30 p.m., accompanied by strong, dual-raising winds brought out a warning of snow during the night which failed to materialize except for a few slight traces in the early evening, according to the Dominion public weather office.

THE MERCURY, however, dropped to 21 at 3 a.m. Thursday and Edmonton and Calgary gardeners were looking ruefully at plants, young trees and hedges, doomed now to a short season at best. Horticulture experts say the frost would not, in all cases, ruin vegetable crops, but would weaken it to the extent that by the middle of August leaves would begin to turn brown and fall.

Wednesday's wind gradually increased from 15 miles an hour at 8 a.m. to a peak gust of 55 at 11:45 a.m., maintaining an average velocity of 30.

## Greatest Increase in West

## Wheat Acreage Up By Thirteen Pct.

By CHESTER BLOOM  
Edmonton Bulletin Staff Bureau

OTTAWA, May 9.—Wheat acreage in Canada this year has increased by 3,037,000 acres compared to last year, or by 13 per cent, according to figures issued this afternoon by the Dominion Bureau of Statistics.

TOTAL ACREAGE FOR 1946 is estimated at 26,451,000 as compared to 23,414,000 last year.

The increased wheat acreage has about evenly divided at the expense of oats, barley and summer-fallow.

The greatest increase was in the three prairie provinces where the increase is greater than for all Canada. Due to the reduction of 210,000 acres in Ontario.

The acreage for 1946 as compared with 1945 in the three prairie provinces was:

## With Queen, Son Italian King Enters Exile; To Abdicate

Exclusive to The Edmonton Bulletin  
LONDON, May 9.—(BUP)—The Rome radio reported that King Victor Emmanuel of Italy sailed from Naples for Port Said tonight shortly before his abdication was to be proclaimed formally in Rome.

The king whose royal prerogatives vanished under the first of Benito Mussolini boarded the steamer Duce de Abruzzi with Queen Helen and their son, the Prince of Piedmont, a Rome broadcast said.

ABOARD which 50 trucks of the royal party were placed, put out from Naples at 7:30 p.m. on the way to the port on the Suez canal, according to the radio.

The government was quoted as announcing that Italian law required the reading of articles of abdication to both chambers of parliament in joint session—a formality the radio said was scheduled for tonight.

The king's departure was following a two-hour conversation earlier in the day with the Prince of Piedmont.

## Claim Bush Fires Are Under Control

Bush fires in the province are under control on Thursday morning, though some fires still smolder, they are near Whitecourt and have been whipped into dangerous proportions by the strong easterly winds, Nelson, chief timber inspector for the provincial government, announced Thursday.

Most of the fires which had been reported were of a minor nature and all were under control except the Whitecourt blaze, Mr. Nelson stated, but reports from that area show that little danger still exists of fresh outbreaks there.

Forestry officials hope that sufficient rain must come shortly to relieve the situation caused by dry growths and high winds.

OTTAWA, May 9.—(CP)—Prime Minister Mackenzie King is expected to leave Ottawa for London in sail Monday for the United Kingdom on the Queen Mary from New York.

He will be accompanied by Norman Robertson, under secretary of state for external affairs, but no word has been given as to the other officials who will make up the prime minister's party.

Mr. King will engage in consultations with Prime Minister Attlee and Prime Minister Smuts of South Africa as well as with the Australian and New Zealand.

Trial of Brigadier Lister, Page 16.

## DEATHS Recorded Today

## Tories, CCF Press Demand

## Commons Hears Further Plea For Canadian Bill of Rights

By D'ARCY O'DONNELL

OTTAWA, May 9.—(CP)—CCF members joined with Progressive Conservative Party supporters in the Commons yesterday in urging that a bill of rights be included in the Canadian citizenship bill, but Justice Minister St. Laurent reiterated the government's view that such a measure would be ineffective.

## Garson Warning

(Continued from Page 1)

has been left in a state of deadlock and impotence.

**THE WARTIME TAX** suspensions agreements between the federal and provincial governments had worked well. Each province was better off under the agreements than it was before them. But the agreements expired shortly—in the case of the Maritimes next October and for the others next spring. Failure of the conference meant a return to the Dominion-provincial financial set-up of the 1930s with all its abuses.

"Obviously the first thing Canada must do before the wartime tax suspension agreements run out is to find for a majority of the provinces... a modus vivendi or working arrangement which will enable them to survive, pending a settlement being reached between the two central provinces and the Dominion," he said.

**MANITOBA** had taken a position of "unconditional willingness" to conclude an agreement with the Dominion's modified proposals because "we were apprehensive that what did happen would happen."

Between 16 sovereign governments the adoption by each of a stiff bargaining attitude in the short-term interests of its own treasury rather than in the interests of either its own people or the Canadian people would result in no agreement whatever being reached.

"We propose to continue by other means within our power to press for a settlement which will give the people of Canada a better life in fiscal justice and social services."

## Kids' Ball Game

## Ends With Death

BUFFALO, N.Y., May 9.—(AP)—A War Service, 16, died early yesterday of head injuries apparently received Tuesday night during a "sandlot" baseball game, police reported. Medical examiner Eugene W. Wallace issued a certificate of accidental death. Police said Sirface and another boy collided while chasing a fly ball.

## Munitions Blast

## Rocks German Town

LONDON, May 9.—(CP)—The British News Service in Germany reported that an ammunition dump exploded last night in Borgsdorf, near Berlin, killing an undetermined number of persons, and blanketing the town with flying missiles. The explosion was said to be caused by a forest fire.

## 425 Skilled GWG Employees Busy on Government Contract

## City Clothing Plant Hums With Activity Supplying Garments for Holland's People

## Confess Stealing

## Mussolini's Body

ROME, May 9.—(AP)—The Italian news agency Ansa said it dispatched from Milan yesterday that two of the 12 persons arrested in connection with the theft of Benito Mussolini's body had confessed their participation and said the body now was hidden "in a secure place."

## Used Auto Dealers

## Draw Large Fines

CALGARY, May 9.—(CP)—Three Calgary automobile dealers were fined \$2,250 here yesterday, before Magistrate I. F. Fitch on 115 charges of selling autos above ceiling, making false statements to the board concerning sales, failing to keep books showing clearly all transactions and failing to file reports of sales with the board.

**DIAMOND MOTORS** were fined \$1,500 or distress to issue and Richard Dillabough, a director of the firm, \$100 or one month imprisonment after pleading guilty to 16 charges each.

George L. Shoults was fined \$750 and Paul Hansen \$500 after pleading guilty of 22 charges each. The men, both from George's used cars, were given an alternative of one year imprisonment each. Atlas Motors, for which Harold Weston pleaded guilty on five charges, was fined \$400.

**MR. ST. LAURENT'S** reference to the "shadow cabinet" came after he had declared said Mr. Diefenbaker was the minister of Justice designate in the shadow cabinet of the opposition.

CCF support for the inclusion of a bill of rights in the citizenship bill, from Alistair Stewart (CCF, Winnipeg North). However, he felt Mr. Diefenbaker's amendment was too restrictive as to the rights of Canadians.

He suggested the amendment be withdrawn and replaced by one which would provide that all Canadians would be entitled to civil, religious and political liberty, to free speech and association and to equal treatment before the law. These rights would be held inviolate.

**MR. DIFENBAKER** had held forth on the needs for a free press, for freedom of religion and for which freedom at the time the amendment had been passed in the Commons. He said as an example the case of Japanese in Canada. Persons who supported the bill, rights and association and to equal treatment before the law. These rights would be held inviolate.

Mr. St. Laurent said it was unfortunate that at times the rights of individuals had to be interfered with by action of parliament. He cited as an example the case of Japanese in Canada. Persons who supported the bill, rights and association and to equal treatment before the law. These rights would be held inviolate.

**Plan Banquet**

The 20th annual Mother's Day banquet and dance of the Fraternal Order of Eagles, Aerie 2102, will be held at the Macdonald hotel Saturday, starting at 7:30 p.m., L. E. Strickland, secretary-treasurer, announced Thursday.

He would ask that the act be repealed. He felt no one would want to take the responsibility of repealing the War Measures Act until the United Nations peace machinery was working.

More than 425 skilled men and women garment workers at Edmonton's own Great Western Garment Company, Ltd., since last October, have been working eight hours a day manufacturing clothing from more than \$46,000 yards of cloth, while the average Edmontonian is adding many a grey hair over the problem of where to get much-needed clothing replacements.

**THE OUTLOOK FOR THAT** Edmontonian is none too bright.

The garment workers, who could, according to plant officials, be increased in number by 100 if the labor were available are turning out shirts, shorts, trousers and combination overalls by the thousands every week, but not for Canadians! These goods are headed for The Netherlands, under a Canadian government contract.

**THE STORY BEHIND** the hustle-bustle at the GWG factory goes back to the autumn day in 1945 when plant officials, whose organization was the largest of its kind in the British Empire, were called to a conference with federal authorities.

As a result of that conference, contracts for the supply of GWG-made clothes for The Netherlands, cut from Canadian cloth allotted for the purpose by the government, were signed and work was underway.

**THE FIRST CONTRACT** for Holland called for 68,000 pairs of combination overalls, requiring a cloth yardage of 374,000. Subsequent orders called for 15,000 khaki service trousers for The Netherlands army, using 10,000 yards of cloth; 30,000 pairs overalls (165,000 yards of cloth) for the Dutch army, and 35,000 white drill shorts, on 40,000 cloth yards, for The Netherlands air force.

**TO THROW A LITTLE** more work the way of the garment workers, the Canadian Army about this time ordered 28,400 combination overalls, requiring 220,800 yards of cloth.

The combination overalls are being delivered to the Dutch people at the rate of 7,000 a week. Shorts are going at 5,000 a week, shirts at 5,000 a week, while all but 2,500 pairs of trousers have been shipped.

**PLANT OFFICIALS**, discussing the terrific amount of work which these "Dutch" contracts have brought to Edmonton, emphasize that in no way have the Netherlands orders reduced the output of civilian goods so far the GWG company is concerned.

Since the cloth is allotted by world authorities at its source to the Dutch, the GWG factory, if not filling the contracts, could not operate at full capacity on cloth available for civilian use.

**THE SITUATION** reminiscent of the war years when huge government contracts brought industry and wages to Edmonton on a scale hitherto unexcelled in the history of the GWG plant.

**THOSE WERE THE YEARS**, 1940 to 1945, when nearly \$4,000,000 worth of orders came to the Edmonton firm, which in one year alone, 1942, total of 8,000 pairs of combination overalls were completed every week for the Canadian army; encom-

## Thieves Make Off

## But Minus \$2,000

MONTREAL, May 9.—(CP)—As Ben Abron walked along north-end St. Viateur street last night he was stopped by two armed bandits who demanded his money. Possibly because there were too many passers-by, Abron told police, the men took to their heels before they had the \$2,000 in his pocket.

## CNR Expects Profit

## On 1946 Operations

OTTAWA, May 9.—(CP)—Canadian National Railways estimates a surplus of \$7,500,000 for 1946, compared with \$25,756,130. It was reported yesterday in the railway's budget tabled in the Commons.

Capital requirements were estimated at \$22,550,000 as against actual capital expenditures of \$7,535,499 last year. Largest increase in capital expenditures was for additional equipment for which \$14,000,000 is estimated this year compared with \$2,626,294 spent in 1945. An item of \$7,000,000 also is allowed for acquisition of the Manitoba railway.

## THE OPERATING BUDGET

purs operating revenues for 1946 at \$381,261,000. A reduction of \$48,314,715 from actual revenues of 1945. Operating expenses estimated at \$350,000,000 as against \$78,479,345 in 1945. The Manitoba railway company is an amalgamation of several lines between Winnipeg and provides important links for CNR operations between Winnipeg terminal and Portage la Prairie and Brandon operated by the CNR under lease.

**CAPITAL EXPENDITURES** made by the CNR on capital equipment \$996,001. Present annual rental is \$300,000 and on the basis of the purchase being made at a rate of three per cent interest. It is estimated there would be a saving of \$100,000 a year. The lease provided an option to purchase for \$7,000,000.

## "Scanty-Panty" Ban

## Renewed in Bermuda

HAMILTON, Bermuda, May 9.—(CP)—The return of tourists has brought renewed enforcement of Bermuda's "scanty-panty" prohibition. Police regulation forbids wearing bathing suits on public roads. It was unneeded during the war because Bermuda had no tourists.

## To View Moon

The University of Alberta observatory Thursday at 9 p.m. will be opened to members of the public interested in viewing the moon, according to Varsity authorities. Experts disclose that the last three nights conditions have been most favorable for the studies but as tonight is expected to be the last under such good conditions, interested persons are urged to be in attendance.

## Edmonton Nurse

## Is Prize Winner

An Edmonton nurse, Muriel McRae, won the Nellie Goodhue prize for the best bedside nursing. It was announced in Montreal on Thursday during graduation exercises for a class of 100 nurses from the Royal Victoria Hospital's School of Nursing.

This was the largest class of nurses ever to graduate from this Montreal school.

## Highlanders Name

## Committee Heads

The executive of the Edmonton Highland Games Association selected committee heads and heard progress reports on plans for their annual sports event, when they met in the board room of the Edmonton City Dairy on Wednesday night.

**CHOSEN TO HEAD** the committees were: Finance, T. H. Campbell; athletic, A. McAdam; piping and dancing, Arthur Mill; grounds, Alex. Riddell.

The games are to be held this year on the South Side athletic grounds on July 1, in connection with a sports day being sponsored by the South Side Businessmen's Association.

The Rev. Father McLennan, who had been overseas as a padre for nearly five years, told the meeting of some of his experiences overseas, paying particular attention to visits he had paid to Scotland. He told of attending a Gaelic "mod" in Glasgow and a similar Gaelic gathering in Aldershot.

Next meeting of the executive will be in the ECD board room on the evening of May 17.

## Diet of Marbles

## Too Much For Lad

PEEKSVILLE, N.Y., May 9.—(AP)—Edward Travis, nine, who eats marbles, wound up in a hospital yesterday because he overdid it. Physicians, while in his stomach. He said he swallowed them on a dare—with a piece of chalk thrown in for good measure.

## 1,500 Policemen

## Hunt N.Y. Bandit

NEW YORK, May 9.—(AP)—A daring hold-up of the conductor and passengers of a Fifth Avenue bus last night by a pair of robbers who previously shot and gravely wounded a policeman, brought 1,500 police to Northern Harlem to search for the escaped men.

## Raise Grain Price

## For U.S. Farmers

WASHINGTON, May 9.—(AP)—The government announced yesterday increases of 25 cents a bushel in the ceiling price of corn, 15 cents for wheat, five cents for oats, nine cents for barley, 10 cents for rye, and 18 cents per hundred pounds for grain sorghums.

The increases become effective at 12:01 a.m. May 13 and will apply to grain now in the hands of producers and grain to be harvested this year.

The purposes of the price hikes were announced in a joint statement by the office of economic stabilization, the agriculture department and the office of price administration.

1. Removal of uncertainty concerning grain price ceilings between now and June 30, 1947.

2. To encourage movement of grain for shipment abroad, for human consumption in this country and for essential livestock feeding purposes in deficit grain producing areas.

3. To bring about "the proper balance" between the number of livestock and grain supplies available for feed.

The 30 cent bonus now being offered to get corn for farm needs abroad will be terminated at the close of business Saturday, May 11. A 30 cent bonus on wheat for export will be continued until May 25.

Oranges were first brought into Europe from China by the Portuguese in 1547.

### Do Something for These

Hon. Bruce Claxton said at Toronto that, because the Dominion has not obtained the taxing powers, it will not be able to give the provinces the proposed financial assistance in maintaining and expanding hospital, medical and nursing services.

As the question is still "up in the air" and no certainty as to when it will be decided, the provinces are not likely to take chances and expand the services on their own account. Nothing, it seems likely, will be done in this matter during the present year.

However that may be, it is to be hoped the Dominion will proceed at least with the plan to reduce the age for pensions to the blind to 21 years, and also to raise the amount and lower the age limit for old age pensioners. Both these proposed changes are urgent. If necessary it would be better to do some economizing in almost any other direction than to neglect the blind and the aged. Their helplessness gives these classes of people priority. It is nothing to Canada's credit that they have been so shabbily treated in the past.

### "Slamming" Quebec

The bill ratifying the loan to Britain passed the House of Commons by a vote of 167 to 6. That probably represents about the proportions in which Canadians are divided on the subject. If the dissidents were few in number they made up for it in noise. They must have taken up as much time debating the question as the 27 to one majority. The expense of the bill would amount to quite a fraction of a year's interest on the loan.

It is a paradox that these opponents come from a province which stands to profit more than most others from the sale of products to the British Empire. Quebec is a highly industrialized province, with water-power and mineral resources which make possible almost indefinite industrial expansion. It has a great water power, and it has the benefit of water transportation all the way to British ports.

Quebec industry and agriculture will get a large share of the export trade the loan provides for. The half dozen members who tried to prevent the bill, however, were not doing very good service to the people of their province.

### Nothing Settled

Mr. Byrnes, U.S. secretary of state, suggests that the general conference on European peace treaties be held at Paris on June 15th. It was to have opened at the beginning of this month. It was postponed because of the lack of agreement. The four foreign ministers had not cleared the ground, as had been hoped.

There has, in fact, been very little clearing done. The broad effect of the talks has been to discover that the preparatory Allied powers are disagreed. The ministers have apparently abandoned hope of ending the disagreements, or of even narrowing them. They are now reviewing problems in the drafting of peace treaties with a view to settling them, "without seeking solutions to any of them."

When the general conference meets, on June 15th or later, it will apparently have to start from scratch. For the preparatory discussions have solved nothing, and settled nothing beyond defining more clearly the deadlocks and friction points among the Allies.

The treaty-making is bound to be a prolonged affair. If the victors will have to argue among themselves, clause by clause, while deciding what terms they will impose upon the vanquished.

### Toronto "Assimilates"

A Canadian of Japanese parentage has been appointed to the teaching staff of the Toronto public schools. This is appropriate, Toronto being the home town of the communist which has been the target of the Dominion Government repatriating Japanese who had said they wanted to go back to Japan. If parents of children attending the school concerned have any objections to make, it will be expected to lodge their protests. All they need do is hunt up the committee and express their views.

To complain to the school board would hardly be in order, since the appointee is a Canadian citizen, and the board is authorized him to teach in Ontario. It isn't the business of a school board to say that a qualified teacher can't teach when there is a vacancy which he is able to fill. The Toronto board evidently believes it is not required to look beyond the certificates as to citizenship and teacher standing.

If in Toronto, how about Edmonton, Calgary, and every other western city—including Vancouver. Are we not to have two grades of citizens in Canada, one of them debarring from teaching school, from marrying whom they will, and otherwise "assimilating" themselves into the nation? Explanations along this line are due from the certification committee which opposed the evacuation of Japan of Japanese residents of Canada, even though these have said they want to go.

### Better Look Ahead

Ontario is looking toward Alberta for coal. This is stated by the Dominion coal controller, at Ottawa. The Government, he says, is considering means to get western coal to Ontario factories and homes as quickly as possible and in larger quantity than ever before. The unusual demand is created, of course, by the stoppage of supplies from the United States and the exhaustion of reserves in storage bins and fuel yards.

This is good news for Alberta mine-operators and miners. Their outlook is for brisk business and steady employment through the summer and well into next winter. Because when the U.S. mines resume production the home market will have first call on the output and will require enormous quantities to replace the vanished reserves, over and above current needs.

But there is another point to be noted. The position of the Alberta coal user, and those in the other western provinces who depend upon Alberta coal, may not be so happy. The controller's agent in Calgary declined to give any information as to how many mines are now working in Alberta, how much coal they are taking out, and how much is moving eastward.

The inference is that extra coal sent to Ontario during the summer and fall may leave a scarcity in the west when cold weather arrives. The coal consumer anywhere in the prairie provinces would seem to be well advised to look in his supply for next winter as soon as he can get an order filled.

### Pass the Word to Moscow

Mr. Gromyko told an audience in New York there would be "certain failure" if one of two commitments tried to set up a guardianship over the world. He is quite right. It can't be done. What happened to Hitler and Mussolini proves the point. He should tell this to Moscow. The advice is quite obviously needed there. It is not needed anywhere else.

There is only one country in the world that is showing any desire to make itself the lone custodian of other nations. The others are working together in hope that they are going to reduce the age for pensions to the blind to 21 years, and also to raise the amount and lower the age limit for old age pensioners. Both these proposed changes are urgent. If necessary it would be better to do some economizing in almost any other direction than to neglect the blind and the aged. Their helplessness gives these classes of people priority. It is nothing to Canada's credit that they have been so shabbily treated in the past.

It is the only great power that has grabbed any territory as spoils of war. It has "negotiated" trade agreements with mid-European and Balkan states, the terms of which it declined to disclose. It "negotiated" oil concessions in Iran with an army just outside the room where the deal was put through. It has demanded guardianship powers over Tripolitania, a territory which does not touch its borders, with which it had little commerce if any, and which it did nothing to retrieve from the grip of the Axis.

By all means, Mr. Gromyko, send word to Moscow to stop this bullying business. The world is asking advice, and very pointedly, where it is going to end.

Canada last year produced 17,000,000 tons of coal, but burned 43,000,000. The other 26,000,000 tons were imported. It came from mines which are now idle, which seem likely to stay idle for some time, and which will have to fill United States bins before they start exporting again. That is how Canada's coal is being used. The United States looks from the Canadian standpoint.

### Looking Backward

From The Bulletin Files

1886: 60 Years Ago  
St. Albert people are petitioning for a weekly mail service from Edmonton, instead of fortnightly as at present.

The Indian department has determined to signify in a substantial manner its appreciation of the action of Indians who remained loyal, under exceptional difficulties, last spring.

1896: 50 Years Ago  
Hon. Joe Martin has been nominated Liberal candidate in Winnipeg.

At the time the reformers at Pretoria telegrams were produced implicating Cecil Rhodes in the Jameson raid, though at the time he was premier of Cape Colony.

Lisbon.—The minister of foreign affairs told the chamber of deputies that the Portuguese had sanctioned the British expedition to the north of Rhodesia.

1906: 40 Years Ago  
The Alberta Pacific Elevator Co., which has secured incorporation by a bill passed in the Legislature, proposes to ship Alberta grain to the Orient.

1916: 30 Years Ago  
London.—What seems to be a new offensive for the capture of Verdun has been launched by the Germans.

1926: 20 Years Ago  
London.—Three alleged Communists have been arrested in connection with the general strike: Shapur Saklatvala, William W. Webb, and George W. Brown.

The Great Western Garment factory on Namoy avenue was badly damaged by fire which swept the three-story building.

1936: 10 Years Ago  
Lakehurst, N.J.—The Hindenburg, newest and largest rigid airship, was launched on a trial trip across the Atlantic in 61 hours, 53 minutes—record time for lighter-than-air craft.

The German cruiser Emden arrived in the St. Lawrence on a courtesy call to Canadian waters.

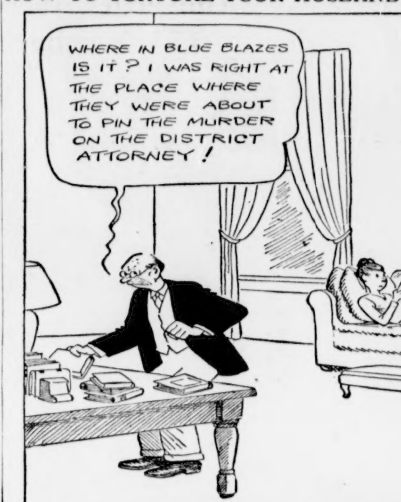

Candidates for Liberal nomination for the by-election necessitated by appointment of W. R. Howson, K.C. to the bench, are to date: Mrs. Marion Connors, K.C., Dr. W. A. McRae, K.C., C. H. Grant, K.C., J. S. Cowper, A. R. McLennan, W. S. Campbell, K.C., C. S. Kerr, E. C. Fisher, Hugh John Macdonald and Robert Price.

A. J. Hooke, M.L.A. for Rocky Mountain House, spent a night sleep in a mud hole six miles east of town. He was returning with Gordon Sorenson, who had been in Edmonton to impress on the government of public works the importance of repair to 14 miles of this highway.

Mine eyes shall be upon the faithful of the land, that they may dwell with me; he shall walk in a perfect way, he shall serve me.—Ps. 101: 1-3, 6.

### HOW TO TORTURE YOUR HUSBAND

### Reasons for Deadlock at Paris Conference—

## Rehabilitation and Russia

Stalin's Ambition Is to Accomplish the Sovietizing of Europe Which Lenin Failed to Bring About, and Win by Revolution What Russia Lost From the First Great War

By Dorothy Thompson  
Exclusive to The Edmonton Bulletin

The Paris conference is confronted by an all but insuperable clash of policy between the Western Allies and the Soviet Union. The United States and Great Britain want peace in Europe; that is to say, they want a settled regulation of affairs. A settlement is to their interests. The United States, in a particular way, wants to lessen its military commitments, and British and American consideration of economic recovery and security is a condition precedent to any settlement. But it is increasingly clear that the Soviet Union prefers a fluid condition of affairs—a condition which is neither peace nor war, the "troubled waters" in which Soviet fishing is most likely to yield a catch.

Russia is hostile to Europe, historically and revolutionarily. There are reasons enough. In the 19th century, Russia was invaded by the French. In the 20th she fought the Germans twice, her own. After the war of 1914 and against the advice of cold-headed and more intelligent Germans, notably the foreign minister, Richard von Kuhlmann, who could not win over Ludendorff, the Bolshevik leaders were compelled, in the treaty of Brest-Litovsk, to sign one of the most Carthaginian treaties in history—and despite the fact that it was Ludendorff, and he alone, who had arranged to get Lenin and the Bolshevik emigres to Russia.

Any stabilization now will militate against the Soviet plan, for Europe is not Communist, and will become Communist only through continued chaos, hunger and disaster. Ludendorff, the Bolshevik agitators trained in the technique of the coup d'état. The economic recovery of the Rhine-Ruhr under the terms of the treaty of Versailles was over, even in the defeated countries.

LENIN WAS under no illusion as to Ludendorff's motives. "It is only a tactical move," he said. "The movement in Russia," he said, "but Lenin, who was determined to have peace at practically any price, thought he could counter Ludendorff with another weapon. The hour is near when, at the summons of our comrade, Karl Liebknecht, the German people will turn their weapons against their capitalist exploiters."

Actually, the Bolsheviks of Germany almost happened, following the collapse of the German empire in the West. The Communist Spartacist movement was suppressed in Berlin by the majority Socialists, Friedrich Ebert and Gustav Noske, and its leaders, Karl Liebknecht and Rosa Luxemburg, were murdered. (The latter had already repudiated Communism, but this was not known.)

Lord Keynes showed that total British casualties were two and three-quarters as great as those of the U.S. with losses in killed and missing three and a half times as great.

THE UNITED KINGDOM suffered the loss of external investments 35 times as heavy as did the U.S. The British public paid 32.5 per cent of their cost of the war in taxation compared to the 4.7 per cent of the American people.

The national debt of the United Kingdom grew to a total of 40 per cent greater than that of the U.S. Lord Keynes showed that while aid from the U.S. equaled only one per cent of the nation's production, the aid which the U.S. received from Britain was 15 per cent of the nation's production.

The Reconstruction Finance Corporation announced that of a loan of 106,250,000 made in 1944 to the United Kingdom and Northern Ireland, 142,553,000 had been repaid.

A FEW FACTS regarding the weight pulled by the Royal North tower winning the war, is "worth noting." Belfast shipyard constructed six aircraft carriers, 140 warships, 123 merchant vessels, 500 tanks, over 500 gun boats, 14,000 gun barrels, 42,000 machine guns, 75,000,000 shells, 180,000,000 incendiary bullets, 7,000 bayonets, sufficient numbers to put 100 squadrons in the air, 3,000 aircraft, 2,000,000 parachutes, 100,000,000 yards of cloth, 30,000,000 shirts were supplied, air force establishments were constructed at 100,000,000, 423,000, 423,000 was paid by the ministry to local farmers for their produce.

General Eisenhower said: "Without the aid which the U.S. received from Britain was 15 per cent of the nation's production."

Issue of Statements to Attending Press Correspondents Is Organized Through "Communique Committee", Resulting in Greater Accuracy in News Columns

By Randolph Churchill  
Exclusive to The Edmonton Bulletin

PARIS—In one respect at least, the current four-power foreign ministers' conference has a better record than its immediate predecessors in London and Moscow. A more intelligent attitude has been adopted towards the press.

Instead of the correspondents being forced, as in the past, to rely on nothing better than indirect revelations by the delegates, the delegates, and sometimes calculated but wholly irresponsible, a regular system has been developed so that world public opinion can follow what is going on. There is no doubt that this policy has proved its value. Instead of the stream of rumor and fabrication which befogged previous conferences, there has been intelligent, coherent and objective reporting of the conference day-to-day proceedings.

A happy half-way house has been found between the open diplomacy of the meetings of the United Nations Security Council, where every word of disagreement is instantly flashed around the world, and the closed-door policy of the London meeting of the foreign ministers, where excessive secrecy resulted in considerable distortion of the true facts. Whatever may be the eventual outcome of this present conference, it is very much to be hoped that the press arrangements developed here will become the pattern for future conferences. And this not only in the interests of the public, who have a right to know what is being done in their name, but also for the smooth working of the conference itself.

WHATSOEVER MAY HAVE gone wrong here in Paris, it is impossible to suggest that the press has been to blame. Treated sensibly and with candor the newspaper correspondents have responded finely to the responsibility placed upon them.

One of the first decisions of the four foreign ministers was to appoint a "communique committee." Though it is true that this committee very seldom issues a communique, it has become an invaluable source for disseminating reliable information. The committee consists of four members, all of whom attend the meetings of the foreign ministers. William Riddell, of the British Foreign Office, is the representative of the British government. The United States is represented by Mr. Stettin, of the State Department, while France is represented by Mr. Laniel, of the Ministry of Foreign Affairs, and Russia by Mr. Stetsko.

Immediately after each meeting of the foreign ministers, there is a meeting of the communique committee. They usually decide to issue a communique, and then return to their hotels and, with the exception of the Russian, they issue very informal press conferences. The Russians do not even tell much of their own state of mind, and of course, they never receive foreign correspondents. But the British, French and Americans admit to the press the attitudes of all three countries. Thus, a very full picture of the day's events is speedily put up. It is generally agreed that Britain's Riddell is apt to be first with the news, but he does not give so full an account as McDermott.

THE FRENCH HAVE HAD one unfortunate lapse, due more to electoral excitement than to bad technique. On the 1st of June, Minister Georges Bidault's brief telephone chat with President Truman last week, the Quai d'Orsay representative, telephoned the number of correspondents and gave somewhat exaggerated accounts of the very limited progress. When reports from Washington made it plain that Truman had merely exchanged greetings with Bidault, the Quai d'Orsay tried to play the story down. But by then, six hours had passed and many newspapers had printed stories which were out of all proportion to what had really occurred.

Last Thursday, the foreign ministers decided to try to expedite their work by limiting attendance to three per side. This decision involved excluding the Communique Committee, who now only receive information from the press. This is a setback for the press but if it results in the conference making more speedy progress, no one will complain.

CORONET

During the tense interval after Pearl Harbor, a milk bottle containing a piece of water-soaked paper was flung out of the Pacific for the FBI.

The writing was too faint to be deciphered, but it was plainly a word for the FBI.

Various tests were made and various acids applied. At last six words stood out clearly. They read:

"Two quarts of milk, no cream."

Over Northern Ireland I do not see how American forces could have been concentrated to begin the invasion. If it had not been that the indefinite co-operative part of the British Empire had been available for use I don't see how the great building-up in England could have been carried out.

Editor, Bulletin: I hope that every MP who accepts an increase in his salary has to face an old age when the same conditions as many thousands are today, \$25 to \$30, say \$600 a year. Live will be some freezing or roasting, sick, all alone.

Nothing could be had enough for those men who have themselves to hard-working taxpayers' money. Many have other sources of income. If they are dependent solely upon their salaries, let them be the first to give up their jobs. What is the younger generation coming to?

SPORTS EDITOR

CAPT. JOHN BEATTY advises that J. R. McCulloch, outfielder of Winnipeg, has been signed and will arrive in Edmonton in a few days. McCulloch is reputed to be fast in addition to being a heavy stick.

John Ducey will arrive back in Edmonton tonight from the trip which took him as far south as Los Angeles in search of talent for the three-club Edmonton league. There was no practice at Renfrew Park on Wednesday night due to cold weather. Opening day for the league has not yet been definitely settled, but it is anticipated first game of the season will be on either Wednesday, May 22 or Friday, the 24th.

**MAKING IT** a two-out-of-three performance during the last three years, the Weather Man came up with what he officially termed "a polar air mass" on Wednesday to force postponement of the opening of the Kingsway Park football season.

Two years ago a good old-fashioned snowstorm called a halt to starting plans of city footballers, but the officials in charge, evidently not being superstitious in such matters, bounced right back with the same date (May 9, 1945) and set away with it.

The game between Walk-Rites and Morton's scheduled for yesterday has been shifted to Thursday night, at which time the ceremonial opening will take place. All signs point to a banner season for the game in Edmonton.

**TWENTY-FIVE** turned out for Wednesday night's spring grid session at Clarke stadium. Despite the "typical football weather" which prevailed, forty were on hand the

## Fastball Officials Organize Boxing, Stage Banquet, Wrestling Body

Threatening weather caused postponement of the scheduled opening of Kingsway Park Wednesday evening, but about 30 Edmonton District Fastball Association officials and guests attended a complimentary dinner at Club Roosevelt. Archie Allen, president of the Edmonton and District Fastball Association, was chairman and Clara Hollingsworth master of ceremonies.

Guest speakers for the evening were Mayor Harry Ainslie, Chief Const. Reg Jennings, Commissioner John Hodgson, Percy Gwynne, all of whom lauded the work done by the association. Other guests attending were: Doug Monies, Clarence Richards, Pete Smith, Mickey McGuire, Alderman Fred Mitchell, Walter Wells, Blake Barker, Murray Sandman, Jack McLean, and newspaper and radio representatives. Other fastball officials attending were: Art Skitch, Paul Soderberg, Bernard Fraser, Bert Barlow, and Ralph Allen.

Those attending were to go to Kingsway for the opening ceremonies of the scheduled game. They, however, will be on hand at 3:45 Saturday to officially open the 1946 season.

## Five-Pin Bowling Playoffs Tonight

City championship playoffs for all leagues affiliated with Edmonton Five-Pin Bowling Association will be held at Recreation Academy tonight.

Seven men and the same number of ladies' leagues will bowl at 8 o'clock, the 21 mixed leagues at 9 o'clock.

Boston Nine Sets New Mark by Trimming White Sox 14-10

# The Sox Register 13th Straight Victory.

## John Pesky Scores Six For Record

By STEVE ROBERTSON

NEW YORK, May 9.—(AP)—Boston Red Sox seems to be the American League team to beat at this stage of the baseball season, and, as such, the league leaders set a club record of 13 consecutive victories Thursday by outscoring Chicago White Sox 14-10.

Their star shortstop—Little Johnny Pesky—erased a mark held by many American League leaders and equaled the National League scoring record set by Mel Ott in 1934 when he scored six runs in a single game.

The high seven runs in 1886 by Guy Hecker in the American Association.

**RED SOX GO OFF** to a running start with nine runs in the first three innings. Each club got 17 hits. The Chicagoans got all theirs off Mickey Harris, who had fifth victory of the season was saved for him by Dave (Boo) Ferris, who pitched and won last, but forced him to ground out. Four Chicago pitchers were victims of the scored runs, which were highlighted by a five-run third inning.

In other American League games New York Yankees stamped out St. Louis Browns 3-1 while Cleveland Indians and Boston Braves, 10-0. Brooklyn Dodgers defeated Cincinnati Reds 8-5.

In the League's only night contest, St. Louis Cardinals defeated Philadelphia Phils 5-3.

At the capital of Hal Newhouse put on an exhibition that belied anyone to say he had a chipped elbow. Aided by the season's first triple play at Griffith Stadium he returned to the mound after a week's rest to nose out Senator Roger Wolf in a brilliant pitching duel. The two hurlers were 99-game winners last season.

Tigers only run came in the fifth inning on an error by second baseman George (Red) McNeil.

**SPUD CHANDLER** became the first pitcher in the major leagues to hang up five victories without a defeat when he limited the Browns to three hits.

Phil Barzile, slugged out a three-run homer for Yanks in the seventh inning.

But a considerable number of coast hoop followers still feel that the island outfit is not necessarily tops in the west.

The train of thought is based on a two-game exhibition series played earlier this season between Victoria and University of British Columbia. Dominos captured the first game at home 69-52, but the University boys came back on their home floor to score a 73-56 reverse and even the series in all respects including the 17-point margin.

**DUE TO SCHOOL** commitments, U.C. were unable to complete the right to move into dominion competition. It's a loss up as to why the outcome might have been had the two teams met in a play-off series.

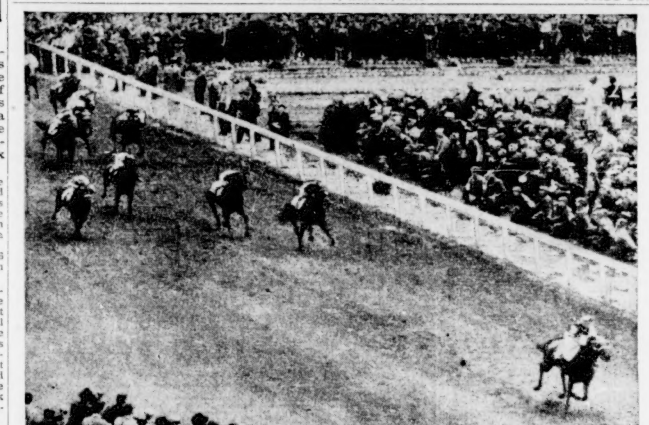

Another season Vancouver fans are so high on the collegians is their record in their first year of Pacific Northwest Conference play with secondary United States colleges. They cleaned up the league with not too great difficulty in addition, playing against "A" conference colleges, Washington State and Oregon Webfoots, they broke even in exhibition tilts.

**AFTER THE SPECTACULAR** entry into U.S. competition, U.C. were unable to complete the right to move into dominion competition. It's a loss up as to why the outcome might have been had the two teams met in a play-off series.

**OHIO HAS ASKED U.S.C.** for a two-game exhibition series here next December. It would mark the first time a big ice team played in Canada.

## Won Coast Conference Stronger Than Dominoes

By MEL SUFRIN

VANCOUVER, May 9.—(CP)—The mighty Victoria, Canadian basketball champions, are home-bound after three convincing victories over the best in the east, Windsor Assumption College.

But a considerable number of coast hoop followers still feel that the island outfit is not necessarily tops in the west. The train of thought is based on a two-game exhibition series played earlier this season between Victoria and University of British Columbia. Dominos captured the first game at home 69-52, but the University boys came back on their home floor to score a 73-56 reverse and even the series in all respects including the 17-point margin.

**DUE TO SCHOOL** commitments, U.C. were unable to complete the right to move into dominion competition. It's a loss up as to why the outcome might have been had the two teams met in a play-off series.

Another season Vancouver fans are so high on the collegians is their record in their first year of Pacific Northwest Conference play with secondary United States colleges. They cleaned up the league with not too great difficulty in addition, playing against "A" conference colleges, Washington State and Oregon Webfoots, they broke even in exhibition tilts.

**AFTER THE SPECTACULAR** entry into U.S. competition, U.C. were unable to complete the right to move into dominion competition. It's a loss up as to why the outcome might have been had the two teams met in a play-off series.

**OHIO HAS ASKED U.S.C.** for a two-game exhibition series here next December. It would mark the first time a big ice team played in Canada.

U.C. interest in basketball is definitely toward the south where the green fields lie, but they intend to get into Canadian senior final play in 1948, because that's the year of the next olympics and the school would very much like to represent the dominion in the international tests.

In the Fiji Islands, the human head is considered sacred, and it is an insult to reach above the head of another person.

## B.C. Bantam Loses

## Montreal Boxing Team Tops In Dominion Amateur Finals

MONTREAL, May 9.—(CP)—Montreal boxers topped the Dominion amateur boxing championship tournament finals Wednesday by taking four of the coveted eight titles while fighters from Ottawa and Fort William, Ont., shared the other four.

## Hatch Had Won Plate Five Times

TORONTO, May 9.—(CP)—One of Canada's great sport figures, Harry C. Hatch, 62-year-old millionaire who died in hospital Wednesday, was the owner of some of the finest blood stock ever to capture the Dominion's great stake race—the King's Plate at Toronto.

With him passed away a golden era in Canadian horse racing which saw Hatch breed and develop horses that captured the King's Plate five times since he entered racing in 1927.

Despite his death his colors will likely fly again May 25 in the Plate—premier racing event in Canada—because the Ontario Jockey Club said his death will make no difference to eligibility of Bluesweep and Palermo, his strong contenders in the event.

His breeding farm at nearby Azimourt produced the following King's Plate track record winners and Goldfibre in 1936 and 1937; Budd in 1941 and Acra and Utherton in 1944.

**UTERMOST** was the first to win the triple crown here as a juvenile, taking Woodbine Track's Coronation Stakes, Thoroughbred Clarendon, and Long Branch's Cup and Sauer. Utermost smashed the King's Plate track record when he negotiated the nine furlongs of the race for three-year-olds in 1:53 4-5.

Goldfibre and Budd also ran as winners of the Canadian Derby at Winnipeg and racing circles credit Mr. Hatch with developing better relations between eastern and western Canada in racing.

## Cage Doubleheader Set for Saturday

Probably the final basketball attraction of the season locally will be staged on Saturday evening at Garneau school gym. The double header will start at 7:30 o'clock with a return match between the Edmonton Jays, city junior champions and Red Deer High School.

The Edmonton team won its first game played in Red Deer recently.

In the second game, South Edmonton team will hold a work-out. Basketball League will meet the Red Deer high school boys.

## Baseball Practice For AEC Tonight

Edmonton Athletic Club junior baseball team will hold a work-out tonight at the Golf Links diamond on 13th street starting at 6:15. All players are asked to be on hand and any others who wish a tryout will be welcome.

## Cadet Meeting

Inter-Cadet sports committee will hold a meeting at the Memorial Hall Sunday, May 12, at 4 o'clock. Members of all army cadet corps are asked to attend as the forthcoming boxing tournament May 17 will be discussed.

Hime and shoke to dry—new PALs are real-resistant. For more and better shaves per blade, ask for the new PAL HOLLOW GROUND. 4 for 10¢, 10 for 25¢, 50 for 81¢.

## Clothe Them Next Winter!

MILLIONS WILL NEED YOUR SPARE CLOTHING IN WAR-TORN LANDS NEXT WINTER

NOW... during your spring cleaning... set aside all the things you can spare... clothes, shoes, bedding, linens, ready for the drive when it begins. However little it may be, remember each thing you give reduces by that much someone's suffering. Millions of people overseas received clothing collected last year. But for every person clothed so far, a dozen remain threadbare facing the dread of Winter. Give that they may live.

# The ROAD AHEAD

By HARPER PROWSE, M.L.A.

RECENTLY the minister of veterans' affairs, Hon. Ian Mackenzie, stated that it was "a misconception to think that the government should completely underwrite the rehabilitation of veterans." I have heard some caustic comment about this statement, but I do not think that any sensible person will disagree with it, if they take the trouble to notice that Mr. Mackenzie put the word "completely" before the word underwrite.

I SAW TODAY: Jack Weber looking over the latest copy of the Edmonton Junior Chamber of Commerce paper.

Viola Crawford hurrying along Jasper Avenue in the direction of her favorite coffee shop, Ted Armstrong boarding a Highlands bus and greeting friends while so doing; Tom Marley jockeying a trolley bus around the turn at Jasper Avenue and 102 Street; Margaret Clark looking over the stock at a main stem music store window; Marjorie Madden doing some grocery shopping in the South Side; Paul Britton discussing the forthcoming Model-T Race meet at the Exhibition grounds.

## ALBERTA MOTOR ASSOCIATION

The AMA Serves You Every Day Watch Traffic At The Corners . . .

This vigilance to traffic at the corners should be of special interest to cyclists. It is difficult for a motorist about to make a right hand turn to signal his intentions to someone travelling between him and the sidewalk. So don't try to pass a vehicle on the right side near a corner.

## ROAD REPORTS

All roads in Alberta are reported to be in good shape. The small amount of rain and snow that fell in some districts has not affected roads.

**Burglars Fail To Obtain Loot**  
Burglars who broke into the public library yesterday evening left empty handed, according to H. C. Gourlay, librarian, who stated Thursday that nothing had been taken from the premises.

The break-in was discovered about 6:30 p.m. by Spencer Sylvester, 12137 93 Street, the caretaker, who observed two persons running away from the east door of the building as he approached it. Glass in both the east basement door and the main door was broken. Apparently the would-be thieves entered the building by breaking the glass in the east door and after crawling through attempted to leave by the main front door. The main front door swung shut and locked behind the men and they were forced to break the glass in it and re-enter the library leaving by the rear door.

## When Convinced of Safety Japanese Become Talkative

Once a Japanese prisoner became convinced he wouldn't be killed or tortured the problem was not to get him to talk but to keep him from talking all day, Col. Joseph W. Stilwell, Jr., newly appointed U.S. Army liaison officer to Maj.-Gen. F. F. Worthington, CBE, MC, of Western Army Command, said here Thursday.

Col. Joseph W. Stilwell, Jr., newly appointed U.S. Army liaison officer to Maj.-Gen. F. F. Worthington, CBE, MC, of Western Army Command, said here Thursday.

Col. Stilwell served for 33 months in the theatre under his father's command in China, Burma and India and was G-2 with the intelligence services.

The officer left the far east for the United States after the fall of Lashio to the Chinese-trained army of five divisions, one British division and an American infantry brigade.

Col. Stilwell described the Chinese soldiers as "terrific fighters with mortars and machine guns superior to even the best-trained Japanese troops."

They were very good with modern arms, once having been trained in their use, he said.

Col. Stilwell killed about 30,000 Japs in the North Burma liberation campaign but took only 411 prisoners.

Col. Stilwell's main job was in interrogation of prisoners.

One of his fair treatment was so contrary to what the Japs had been told, that they had no time for laughing all day," the U.S. officer said.

"Many of them wanted to take a shower, and when they were found how well they were treated," he added.

THE CHINESE HATED the Japs but always accorded Japanese prisoners fair treatment.

His wife and two children, a boy seven and a girl of three, accompanied him to Edmonton.

House-hunting will be one of the Stilwell family's first headaches on arrival here, he admitted.

General Worthington is highly respected in the United States, particularly among the Pacific Coast.

THE UNITED STATES Sixth district command, with headquarters at Vancouver, B.C., is the command of the liaison officer's father. This command will work in conjunction with the Western Army Command under General Worthington.

Col. Stilwell's first visit to Western Canada.

His wife and two children, a boy seven and a girl of three, accompanied him to Edmonton.

## Ear-Test Competitors Win Praise From Music Festival Adjudicator

"The most consistently outstanding class yet to appear in the Edmonton and District Musical Festival," was the comment made by Dr. Charles Peaker, adjudicator, when referring to the ear tests for juniors under 17 years. Perfect marks were made in the competition by 12-year-old John Kester, while the two runners-up, Margaret Ann Brine and Donna McDougall, were awarded 96 each.

This event took place Thursday morning at McDougall church.

DR. PEAKER said that he was quite pleased with the presentations in the slight playing piano classes.

To add variety and interest to the program Dr. Peaker had some of the young contestants play the accompanying music on the piano while he played the melody on the organ. The youngsters were of course playing from music they had never seen before.

IN THESE CLASSES the winners were: Grade 4, Valerie Kallit, 96; Grade 5, Mary Gibson, 84; Grade 7, Marilyn Tupper, 86; Grade 8, John Kester, 100; Grade 9, Evelyn Webb, 100. In the open class Allan Boomer of Edson, received 98 points.

The first singing events of this year's festival got underway on Thursday morning and provided some fine entertainment for the spectators. Highest marks in the events went to Kenneth Nichols in the class for boys' solos under 11 years. Dr. Peaker awarded him 90 points and described his voice as being "very pretty with a really beautiful tone."

FOR GIRLS under 10 years Myrna Anderson with 82 points, took the winning certificate by one point from Evelyn Kester. Eighty-four points gave Kenneth Peetschke a one-point edge on Robert Carter in the class for boys' tenors.

For a girls' solo, under 11 years, Lila Skakum of Holden was awarded 85 points. Robert Kester took second place with 82 John Vango, the only contestant for boys under 12 years, was awarded 85 points. A close contest was made of the boys under 13 with Billy Winger, 85, John Starch, 84, Athabasca, 84 and Bryan Ledingham, 83. A lone entry in the class for boys under 14, Leonard Peetschke, was awarded 82 points.

ONE OPERATOR in Southern Alberta reported Wednesday that a rush of eastern orders would give employment for 700 more miners if the coal was available.

No move has been made in the Edmonton area, to take on miners, but the coal shortage is expected to the decline in orders. Nor has there been any suggestion made, at the time of writing, of an order from Dominion government, sponsorship, at Taber, Grassy Lake and Brooks, to take on more miners in March, will be opened to meet the Eastern Canada shortage.

COLLIERY OPERATORS in the New West, Pasqua, reported that the production of mines in the Lethbridge and Pasqua area is below capacity because of shortage of labor and absenteeism.

Halifax Engineer To Speak in City

J. B. Hayes, president of the Engineering Institute of Canada and general manager of the Nova Scotia Light and Power Company, will be guest of honor at the annual meeting of the Institute to be held by the Edmonton branch of the Institute in the main dining room of the Macdonald hotel on Monday.

Accompanying the president on his Edmonton visit will be Mrs. Hayes, Dr. L. Austin Wright, general secretary of the Institute, and C. H. Currie, member of the committee on professional interests and conduct of the Institute.

Tickets for the dinner may be obtained from W. W. Preston, branch secretary, department of Civil Engineering, University of Alberta.

Accident Results In Finding Truck

A traffic accident at the intersection of 124 Street and the Stony Plain road, resulted in the recovery of a truck which had been stolen from the property and had been parked at 102 Street, a short time earlier.

The truck, speeding east on the Stony Plain road, failed to stop before entering the 124 Street intersection and crashed into an auto driven by Donald Murray Noren, 19637 83 Avenue, which had been proceeding south on 124 Street.

According to Ken Puffer, 1048 125 Street, who witnessed the accident, two men jumped out of the truck and ran off north on 124 Street.

The truck is owned by Tom Cunningham of Grande Prairie, who was attending a theatre when his truck was stolen and involved in the accident.

New Record Set In Tax Payments

With more than \$30,000 being paid into the city's treasury Wednesday in first instalment payments of property taxes, a new record for the city was set.

The total paid in the corresponding period of 1945 was \$25,144 for an increase of \$7,856. This year's record was disclosed at the city assessor's office Thursday.

Plan Gym Display

Westglen high school gymnasium will be the scene at 8 p.m. Friday of the annual gym demonstration of the Mountglen community YMCA, when more than 100 boys and girls are slated to take part.

The youngsters have been under instruction for the last seven months of Dominion-provincial youth training athletic experts.

## Rationed Foods

BUTTER: Coupon R7 now valid. SUGAR: Coupons 88 to S12 now valid. MEAT: Coupon M36 now valid.

## More Warehouses Are Planned Here

Building permits for erection of two warehouses in Edmonton were issued by the city architect's office Wednesday. One was issued to Independent Wholesalers Ltd., for \$60,000 covering a reinforced concrete building at 10326 104 Street, the other to the Edmonton Paint and Glass Co., for \$20,000 for a brick and concrete structure at 10157 103 Street.

A permit was issued to Checker Garage Co., for \$3,000 for roof and other repairs to a building at 9649 101A Avenue.

Thirteen home building permits were issued with a value of \$45,000. The permits were issued to: R. Winterson, 12123 95 Street, \$3,000; E. Erickson, 10845 76 Avenue, \$6,000; A. Busby, 12037 65 Street, \$3,000; B. C. Weller, 11402 62 Street, \$4,000; P. Schreiner, two homes each costing \$1,000 to be erected at 881-24 142 Street.

A. J. Adams, 9736 84 Avenue, \$3,000; John Under, 11015 84 Avenue, \$3,000; A. W. Mohr, 10731 29 Avenue, \$6,000; L. C. Mix and R. O. Pritchard, 9662 86 Avenue, \$5,000; Ray Heaslop, 12345 85 Street, \$3,000; W. Ruder, 8027 112 Avenue, \$3,500; W. Fringle, 10718 116 Street, \$3,000.

## To Give Address

"How to Read a Newspaper in One Very Simple Lesson," is the subject of an address to be given by J. V. O'Neill at a meeting of the Edmonton Credit Union Chapter League to be held in the chapter's new rooms, Legislative buildings on Monday. Mr. O'Neill is on the staff of The Edmonton Bulletin.

## ARMY BOOTS — CHEAP

CAPTOWN — (CP) — More than 250,000 pairs of army boots, classified as suitable for remaking, are being released to social welfare organizations to be sold in the open market. It is likely that some of the boots will be sent overseas for distribution in countries where there are overruns by Germany.

## Johnstone Walker Limited

Store Hours: 9:30 a.m. to 5:30 p.m. Phone 2516—Ask for Dept.

## Travel and Lounging Robes

Regarded Indispensable by Travellers and Vacationists

9.50 10.95  
12.95 15.75

Men whose profession or business necessitates train travel, regard a classy Robe as being an essential part of their wardrobe. And like wise do vacationists whose plans include train or boat trips.

Here, at Johnstone Walker's there are robes of every description for just such occasions and hours of relaxation at home.

• Poplins in wine with black contrasting trim.  
• Satin Stripes Bengelines in navy with red stripe and wine with grey.  
• Broadcated Rayon with paisley trim.

• Fine wool in camel with wine trim—also wine with contrasting silk cord trim.  
• Terry cloth in wine or blue with contrasting stripes.

Collectively, small, medium and large sizes also overpriced. Priced at 9.50, 10.95, 12.95 and 15.75

## Men's Skintite Trunks and Athletic Shorts

Men, too, will thank us for this reminder that it is time to invest in new swim trunks and athletic shorts.

• Men's Swim Trunks—Skintite and other makes of good quality rayon, bengaline and cotton and rayon mixtures in royal navy, sage blue, wine and all-around colors. Reinforced fronts, jockey linings and all-around elastic.

• Athletic shorts of mercerized cotton gabardine in lawn only. Zippers, elastic and all-around support and all-around elastic. Priced at 2.95, 3.95 and 4.95

## Men's Ritchie Prop-r-Arch SHOES

Smart Styling Combined With Comfort At 8.50 and 9.50

With Prop-r-Arch Shoes your body takes the balance and rhythm from the delicate art of walking and the fast motion of your foot.

Prop-r-Arch Shoes are built to follow the natural contour of your foot. They have the tendencies of tired or weak arches to aid. They give you stride a free, natural swing and keep you on your feet all day, hold comfort and no breaking in.

• Prop-r-Arch Oxfords, A to E, sizes 6 to 12. Priced at 8.50  
• Prop-r-Arch Boots, B to E, sizes 6 to 12. Priced at 9.50

## DOROTHY DIX SAYS—

## Elderly Woman Falls for Boss; Wife Worries

A Woman 24 Years Older Than Her Boss Has Fallen Madly in Love With Him Although She Has a Husband and Five Children

DEAR MISS DIX: My husband and I are very fond of each other and have lived very happily together, but we have a problem now that we do not know how to handle. He has been made supervisor of a business in which more than a hundred women are employed. One of these women, who is 24 years older than he is, has fallen madly

in love with him. She has a husband and five children, but she is trying to persuade my husband to leave me and go away with her. She tells him how happy they would be together and she makes him presents which embarrass me very much.

He says that she is a very nice person, but I have come to the conclusion that he must have given her some encouragement for her to be so desperately infatuated with him. Won't you please tell me what to do in this difficult situation?

ANSWER: I don't think you need lose any sleep over fearing that your husband has fallen for the charms of an elderly woman with five children. If the shoe was on the other foot and he was a middle-aged man who has gone having over a girl 24 years his junior, you might begin to get a little green-eyed over the matter.

BUT ROMANCE doesn't work in reverse where women are concerned, and I would be sure you are perfectly safe from Grandmas. The only old women who take young husbands away from their wives are those who have heavy pocket-books and are able to pay the price. Sex need you be suddenly upset by the fact that your husband doesn't seem to resent the old lady's courtship. There are very few men who are not flattered by knowing that a woman is crazy about them, no matter how old she is.

You are quite wise in not making an issue of the affair. Your play is to laugh it off. Treat it as a huge joke and get some of your husband's friends to tease him about it. If you can make him realize that it is putting him in a ridiculous position, he will fire the old lady. DOROTHY DIX: We are a group of date-givers and we have a problem that we do not know how to solve. It is about the boys we go with. It seems as if they will never grow up and cut their mothers' apron strings. They are very nice boys and we have tried everything possible to help them, but it seems impossible to get any results out of them.

Can you tell us what to do? ANSWER: I can't solve your problem. I don't know what you expect of the boys. Do you think that they are young for you? Do you think that they lack the sophistication that you think you possess yourself? If you are a date-giver, you should have allowances and you want dates who have more money spent on you.

IF ANY, OR ALL, of these things is what is troubling you, you will just have to grin and bear it and wait on nature because boys don't develop as early as girls do. Every teen-age boy is at least two years younger than a girl who has had the same number of birthdays. You will have to wait the last time.

But God is good and you need not mourn without hope. The GI boys are coming home by the thousands and they will solve your date problem for you.

DEAR DOROTHY DIX: I have been married a great many years and during all that time I have never known my husband do anything crooked behind my back, but for the past four or five weeks he has been buying nylon stockings at a certain hosiery shop. Not less than two pairs per week for some reason. I don't know how long he has been doing this, but soon she will have enough to open up a shop. The part that bugs me is that he knows that I have been running off over town since last November trying to get nylons and I have only been lucky enough to get one pair. Should I say something to my husband about it, or just let it ride?

ANSWER: It would be too bad to have a rift in your happy married life over a pair of stockings, so my earnest advice to you is to just let it ride. It won't be long now nylons will be plentiful and women can buy them for themselves. But it is curious to think that not since the forbidden fruit in the Garden of Eden has any one article been so seductive as nylon stockings.

## Bulletin Patterns

By ANNE ADAMS

Your "tiny time" will want to play princess in this pretty frock. Pattern 4568 may also be made with puff sleeves. Peter Pan collar. A useful, adorable cape is included. Pattern 4568 comes in sizes 2, 4, 6, 8. Size 6 frock is 34 yds., 35 in. cape 1 1/2 yds. Send 20 cents in coin (stamps cannot be accepted) for this pattern. Print plainly, name, address, style number. Send your order to The Edmonton Bulletin, Pattern Dept., 60 Front Street, W., Toronto, I.A. Ont. Please allow a week or ten days for delivery.

## Debunker

There have been many popular stories about people swallowing tiny snakes or snake eggs while drinking from a garden hose, or from a fresh-water stream. Then these eggs or small snakes are said to develop in the person's stomach until a large snake lies inside the person. This is nonsense. It would be absolutely impossible for a snake to develop in one's stomach, for their eggs are like large toads swallowed, and in addition, a snake could not by any chance live in the stomach for it must breathe just like human beings do. Either eggs or small snakes would be digested if they did get in the stomach.

Insects are usually near-sighted and depend on their sense of smell for protection.

## By JOSEPHINE LOWMAN—

## Why Grow Old?

Josephine Lowman tells you of an exercise to reduce the waist in her column today. In addition she asked Actress Dorothy Malone to show you this one. In this position you twist the arms and torso from side to side.

THERE IS a widespread idea among reducers that their water intake should be cut very low because this adds to weight. This is not true. You will weigh more after drinking lots of water just as you will weigh more after a heavy meal. However, this is temporary and lost as the water is eliminated from the system. The water we are very nice boys and we have tried everything possible to help them, but it seems impossible to get any results out of them.

Some times the tissues will retain water for an abnormally long period. In an instance of this sort a physician should be consulted for it indicates a systemic abnormality. Drink water when you are reducing just as you do at any other time. Salt has a tendency to increase water retention in the body and for that reason should be restricted during the reducing period. Generally speaking, your thirst is the best indicator of how much water your system requires. However, during winter months a need for water may be increased by the fact that you should watch your liquid intake during cold weather to see that we get enough for our bodies. During the summer this is not likely to happen. One of the main contributing causes to constipation is too little water.

This week has been especially planned for women who need to lose weight and today's exercise is a splendid waist slimmer. Stand tall with your feet comfortably apart. Drag the finger tips down the left leg all the way to the ankles if you can or as far down as you can. Drag the finger tips down the right leg while on the left side and then drag the finger down the right leg and pull back to the left. Continue. If you wish to have my doctor-approved "Nine Day Reducing Diet" which gives you a loss of from five to ten pounds, send a stamped, self-addressed envelope with a request for leaflet No. 39 to Josephine Lowman in care of this newspaper.

Released by the Register and Tribune Syndicate, 1946.

## Coal Production Up For February

OTTAWA, May 4.—(CPI)—Canadian collieries produced 6,638,335 tons of coal in February, an increase of nine per cent over the 6,107,791 tons mined in January, 1945, the Dominion bureau of statistics reported yesterday. January output was 1,077,161 tons of bituminous coal, 367,413 tons of sub-bituminous coal and 173,729 tons of lignite coal. In February, production was: Nova Scotia, 55,632 tons; Saskatchewan, 173,729 tons; British Columbia, 1,342,911 tons; and New Brunswick, 23,294 tons.

## Points for Parents

By EDYTH THOMAS WALLACE

Not This. This. Green is the color for Maytime! It's the Summer fashion pet. So wear Green but make up to it and for it. Pale face, powder, soft Rosy-Red for cheeks, lips and fingertips. Wear Green as a backdrop, to Dramatize your eyes!

## Your Baby And Mine

By MYRTLE MEYER ELDERD  
THE CHOICE of a nursing bottle when baby is put on artificial feedings may be made from two general types of bottle, the small or the large necked one. Both are completely satisfactory and the choice of one or the other can be a personal one.

THE NIPPLES for both types of bottle should be capable of being turned inside out for thorough scrubbing. After washing with soap and water, they should be rinsed well. At bottle-washing time set the nipples to boil in a separate pan for quick sterilizing and add a teaspoon of salt to the water. It keeps the nipples firm. Lift out with a darning needle and store away in a sterilized glass jar with a cover. The nipples from the large neck bottle should be changed more often than those from the small neck bottle.

SOMETIMES the hole in the nipple is too small and the baby wearies himself out before the full amount of formula is consumed. To correct this, note if the milk drops rapidly from the nipple-hole. If it does not it may be enlarged with a red-hot needle. Stick the large end of the needle in a cork and hold the point over any flame until it is red. This will puncture a permanent hole.

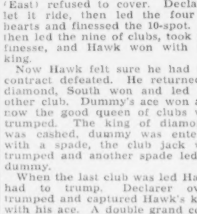

When the baby nurses, a vacuum is created which inevitably collapses the nipple. Then it has to be lifted from the bottle so that air can flow again. Some nipples are manufactured with a hole at the base which prevents this collapse. Mrs. R. F. has another suggestion for prevention which is very ingenious.

TO LAY A WHITE THREAD over the top of the bottle and let it extend beyond the nipple. The thread for mother's thumb allows air to get into the bottle and prevents collapse of the nipple. I boil the thread along with the bottle.

Our leaflet No. 22 "Formulas and Early Feeding" contains instructions for mother's thumb. It may be had by sending a stamped, self-addressed envelope with a request to Myrtle Meyer Elderd in care of this newspaper.

Friend! "hand it" to you for good taste when you crochet these smart gloves! Easy to do—crocheted of string in two pieces. Crocheted gloves go with any costumes; wash so well! Pattern 7355 has directions for gloves in small, medium and large sizes. Send 20c in coin for this pattern (stamps cannot be accepted) to The Edmonton Bulletin, Household Arts Dept., 60 Front Street, W., Toronto, I.A. Ont. Print plainly name, address, pattern number. Please allow a week or ten days for delivery.

## Minute Make-Ups

## Cattle Rustlers

Aid Black Market

PETERBOROUGH, Ont., May 4.—(CPI)—Silver Rustlers are on the prowl at nearby Lakefield and police suspect they are working for black market operators. Biggest haul so far was at the farm of Harry Reel, a mile east of Lakefield, when three rustlers stole six head of cattle. Police said they believed the rustlers take cattle to remote swampland, then remove stakes, and later pick them up for delivery to black market slaughterhouses.

## Silent Giant of Yellowknife Is North's Most Fabulous Prospector

Big Mike Miffo, who once threw 12 men, one after another, through a closed saloon door, presents prize (left) to winner of Yellowknife Dog Derby, Henry Martin. Between them is Chief Sine Abel.

With an 18-ft. canoe slung on his back, Mike has portaged rapids from Quebec to the Klondike. Once in a British Columbia mine, he made \$40 a day on piece-work, while the average "puny" miner was able to make only \$7.

## High Marks Feature Of Music Festival

Highest marks to date were earned at Wednesday afternoon's session of the Edmonton and District Musical Festival, being held in the McDougall church. Helen Glatiotis of Camrose received 95 points in dramatic recitation for those under 20 years while a grade three class from Sacred Heart school was awarded the same number of points for choir speaking.

MISS GLATIOTIS gave what adjudicator Sydney Risk described as "one of the best presentations of Act 3, scene 2 of Romeo and Juliet that I have ever had the pleasure of hearing." Miss Glatiotis lost points on not having quite enough voice range and on one of two mispronunciations of words. Runner-up was Violet Ulasovets with 82.

"A real pleasure to listen to" was the adjudicator's comment on hearing the Sacred Heart grade three 95 points. They were directed by Sister St. Therese d'Alencon.

Miss Glatiotis made her second win of the day with 88 points in the class for Canadian poetry, under 10 years. In second place was Ruth Zielke with 87. Mr. Risk said that Miss Zielke began with too much intensity and so had no reserve left for the climax, although her phrasing was excellent.

In the class for those under 23 years, reciting "The Ship of 61" by Bliss Carman, Bruce McDougall took top place with 86 followed by Lois Neilson with 82. All contestants in this event were rather cool about the ships of St. John," stated Mr. Risk.

GRADE ONE winners in choral speaking were from Sacred Heart school with 88 points. Grade two winners were a class from St. Francis school with 88 points, a two-point lead over North Delton school.

"Good listening with excellent variety in ages and numbers," was the description of the afternoon's chorus competitions, given by Dr. Charles Peaker, the adjudicator. Grade two from St. Francis school, directed by Mary J. Stratton, were awarded 84 points. Oliver grade fives led by R. G. McDiarmid made 83 marks to take the winning certificate in their class.

"A remarkably capable choir expertly directed," was the judge's comment on the 52-member choir from the Camrose Lutheran College. The choir conductor is Edwin R. Marken. They were awarded 86 points.

Wednesday evening featured duets, trios, quartets and choruses. Helpful criticism was given by the adjudicator, Dr. Peaker, to both male quartets entered the competition. Winning group was the quartette from Camrose College with 82 points. They were closely followed by St. Andrews with 80.

Eighty-three points gave the Bashaw ladies' quartette first place in their class. For a soprano and contralto duet, Bessie Wilson and Wilma Howitt of Bashaw received 81 points. "A pretty tone but a little breathy" was the judge's comment. Cavendish trios No. 1 and No. 2 took first place in the ladies' trio group, respectively. The winners with 85 points were three ahead of the runners-up.

IN THE CHORAL CLASSES Dr. Peaker gave praise to choirs and

conductors alike and stated that Edmonton was fortunate in having so many groups of this caliber. Prize winning choirs were: The Cavendish choir, led by Leonard Betts, 88; Woodward's choral society, conducted by Leonard Betts, 87; First Presbyterian Choral Society, directed by Arthur Newcombe, 85; Edmonton Male Voice Choir, led by Arthur Newcombe, 79. In the church choir classes, First Presbyterian, conducted by Arthur Newcombe, received 84 points; Holy Trinity, Herbert Wild, 82; Christ church, Herbert G. Turner, 84; St. Andrew's, Mrs. A. L. Miller, 77; and Strathcona Baptist, led by Mrs. D. S. MacEachern, 79.

## Road Ahead

Continued from Page Nine

he could by sitting back and asking "what are you going to do for me next?"

MOST VETERANS will be in hearty agreement with Mr. MacKenzie. By far the great majority of veterans expect the government to assist them in finding, or preparing themselves to take advantage of, the opportunity of earning their own living. There are many who don't want help from anybody except the government, who base their demands on their wishes, rather than on fair requirements.

Although our rehabilitation program is better than that of any other nation there are still many gaps in it, and in many respects it does not go as far as many believe it fairly should. I am sure Mr. MacKenzie would be the first to admit this. But the reason that it does not go further in most cases, is that every time a concession is made, then the door is opened for others to ask for concessions, and for still others to increase their demands.

THE STATEMENT of Mr. MacKenzie to which I referred in the opening paragraph (to be published in the present time) is that their allowances should be increased. At the present time they are \$60 per month for single men, \$80 per month for married men, with regular service allowances added for children, and, of course, the "baby bonus." Under this scheme a married man with one child receives \$92 per month, plus the "baby bonus"—which in most cases will be an additional \$5. All regular university fees are paid as well.

IT HAS BEEN pointed out, that due to the fact that many married men find themselves having to pay very heavy rents in order to obtain suitable accommodation, that these grants are not enough. It is certainly not sufficient to permit any kind of luxury.

However, the man going to university surrenders his re-establishment credit, but not his claim to benefits under the Veterans' Land Act. His grants, plus payments of fees, will repay him, on the average university course, a sum which is from five to ten times what his re-establishment credit amounted to. Which doesn't seem to me to be such a bad deal!

There has been agitation, however, for an increase in these allowances to \$80 for a single man and \$120 for a married man. And these grants would still not permit the married man to live in luxury.

HOWEVER, IT MUST be remembered that the income of most

## YMCA Observes World Service

The Young Men's Christian Association here and in other parts of the country is observing this month as World Service Month to mark the 57th year of service of the global arm of the North American Y.

This was announced here Wednesday by John P. McClary, chairman of the world service committee of the Edmonton Y, who said that May would also witness the launching of a nationwide drive for \$850,000 to finance the varied activities of world service in 26 countries.

World service will be featured at the Edmonton YMCA beginning on May 9, when Hartley Fowler, secretary to the international committee of the YMCA, will address a dinner meeting.

World service of the YMCA, according to Mr. McClary, today faces its greatest task in years.

He said, "Aside from carrying on its regular activities in the 15 nations it served during the war, it is resuming its activities in other nations where war conditions made full co-operation from North America impossible in recent years."

Members of the committee are Harold Fryer, William Levine, Alex Stronach, Dr. T. How, Ian Robertson and Pat Ogilvie.

## RCAF Bomber Wings To Go On Bonfire

OTTAWA, May 9.—(CP)—War Assets Corporation is considering a monster bonfire to dispose of 128 surplus mosquito bomber wings near Weston, Ont., unless someone can be found soon who will remove them from land now wanted by the RCAF. A WAC statement says scrap dealers are not interested in the wings which are 90 per cent wood.

Canadians is less than \$100 per month—out of which they must pay unemployment insurance, compensation, and other charges. I do not think that the demand for an allowance of \$120 per month, free of all charges, to permit a man to prepare himself for a high-income bracket, will gain much favor with the public under these circumstances.

Many people get themselves university educations without grants of any kind. The ability to get a university education depends to a large extent on the determination of the individual concerned. So while I believe that a request for a loan to cover the cost of equipment, or excessive rents, might be entertained, I can't help thinking about a man who killed a goose which laid golden eggs.

## To Improve Music Standards Main Objective of Festivals

The author of this article, Mabel Betts, is the wife of Leonard Betts, conductor of the Cavendish Choir and the chorus of the C. Woodward Ltd. store here. She is a member of the Cavendish Choir and has taken a genuine interest in the up-lift of choral singing here, Saskatoon and other points. Those who have followed music festivals will have encountered many such instances as she relates.—EDITOR.

By MABEL BETTS

On May 20 at Lethbridge, Alberta will commence the 39th annual competition festival of the Alberta Musical Festival Association. Beginning May 6, the tenth Edmonton District Festival is now being held in Edmonton and Edmonton citizens have the opportunity of either taking an active part in the competitions or sitting in the audience and listening to what should be the competitors' best efforts, if they have entered the festival with the spirit the founders of the festival movement wanted to foster.

THE FIRST and most important purpose of musical festivals, or any like competition, is not the winning of shields, trophies, etc., or of beating the other fellow, but to increase the general standard of music or speech or art in the case may be. As a constant attendee and participant for over 25 years, I know that the standard can and has been raised in many communities by healthy competition in the various classes of the musical festival.

I well remember the first time I entered a festival as one of a Collegiate choir of 35 voices. The competition piece was that old standard "Fall on Me Like a Silent Dew" and I thought I must be pretty bad because our conductor asked me to sing the second part! That was in one of the smaller prairie cities and at that time there was only one other choir in competition with us. Now, in that same city, there are always three at least, and usually four collegiate choirs entered in that class and I shudder to think what our effort would sound like in comparison with those choirs of today.

I AM FIRMLY convinced that the high standard of all entries now is directly attributable to the fact that, over a period of years, the children have had the opportunity of listening to other choirs, who have been working towards perfection according to their teachers' lights, hearing the helpful advice of excellent adjudicators, and, above all, of working themselves toward the goal of as near perfection as they can. Not everyone can win, but if choirs and individuals enter the competitions with the conscientious intention of doing their very best, no one can lose. The very fact that they strive to do their best is bound to raise the standard of their work.

Critics of festivals so often say that the adjudicators are unkind and unfair. Undoubtedly a few of them have been harsh in their criticisms but, for every one who has been at all cruel, there has been a dozen who have been most kind and whose criticisms have been helpful and an education not only to the participants but to others in the audience.

ONE YEAR THE school chorus entries were particularly heavy, often as high as 25 choruses of the same grade, singing the same test piece. Dr. Staton, that wonderful little man, sat through competitions which became tiresome even to the most enthusiastic and during that long session, never once showed the slightest impatience or neglect even the poorest entries in his helpful and instructive remarks at the close of each competition. The competitors finished at nearly twelve o'clock—it was a morning session—and a man less interested than Dr. Staton would have been hot and tired and put on his hat and think about lunch.

Not so "Mr. Punch" as Dr. Staton was affectionately known to many festival adherents for his remarkable likeness to that character. The last competition was the one with the 23 entries, grade five, each class comprised of from 25 to 40

when Frankie was but a babe in arms.

AS I HAVE SAID, I have attended festivals regularly for over 25 years. I have suffered with the nervous, I have rejoiced with those who have excelled, I have been thrilled by performances of large church choirs and little country school choruses. I have been in winning choirs and losing choirs and taken some stiff criticism, but never, and I say "never" without reservation, have I attended a festival without learning something.

Will you see me at the festival sessions this week? I conclude with a fervent "You betcha!"

## Siamese Twins Born in Oregon

PORTLAND, Ore., May 9.—(AP)—

Siamese twins, born at a hospital here Tuesday, were alert and strong yesterday as their first full day of life was completed. Mrs. Mary Hulse, 26, said she had not decided what to name the two girls. Dr. Joseph V. Springer, the attending physician, said the twins would be in as good condition as normal twins although he added that the twins were high. At birth they weighed 9 pounds four ounces.

ANOTHER YEAR ONE of the best pieces for school choruses was "A Lake, and a Fairy Boat to Sail." Sir Hugh Robertson was the adjudicator and when he came to the platform to give his adjudication he looked at the children and asked, "Do you believe in Fairies?" A mighty "No" resounded, whereat he remarked, "I thought not by the way you sang about them!" He went on to tell them that he believed in fairies, and the ones with the cheesecloth wings and silvered wands of the Christmas entertainments, but the little creatures of the imagination, then asked them to all get up and sing the song again and convince all the doubters that there really were fairies. What a difference! yet I have heard that man branded as mean and unkind on more than one occasion.

My friends tell me I'm a crackpot on this festival business. Perhaps I am, but there are some things which could happen nowhere else, that I would not have missed for worlds.

THERE WAS THE brass band from a tiny little prairie town whose tone was so smooth it sounded like a mighty organ. There were the boys' choirs and the children's choir, which was so nearly perfect they received a mark of 99. There was the time when all entries in a school chorus competition had taken part but one. The card was just being taken down when a dusty little grunted entrance came in from the back of the church straight onto the platform and sang beautifully.

After the competition we learned that the train was delayed and they had driven 70 miles to take part in the competition. There was the personal experience when the four large Gladys "A" Church choirs sang as a massed item on the last night of the Festival Bach's 121st Psalm, with Dr. Thomas Armstrong conducting and Harold Samuels at the organ.

THAT REHEARSAL was a treat. Dr. Armstrong thought Bach should be smooth with sustained singing tone. Mr. Samuels was of the opinion it should be clean cut and essentially rhythmic. Throughout the rehearsal there was good-natured bantering between the two of them almost continuously. Then on the night of the performance, the choir was almost convulsed when Dr. Armstrong turned slightly and very quietly remarked to Mr. Samuels, "My way, please."

Dr. Armstrong was one of the youngest adjudicators we ever had and more than popular with the young female competitors. He was a bit nervous anyway but was almost overcome with embarrassment when the younger ladies of the choir literally swamped him for autographs. This in the day

## Nazis Responsible For King's Murder

BUCHAREST, May 9.—(Reuters)—

The Gestapo was responsible for the assassination of King Alexander I of Yugoslavia in Marseille in October, 1934, Eugene Criticu, former head of the Romanian secret service, said in the Romanian people's court yesterday. Criticu, on trial on treason charges connected with Romania's participation in

the war on the Axis side, said the Gestapo also was responsible for the assassinations of two former Romanian prime ministers, Ion Duca in Sinaia in December, 1932, and Armand Calinescu in September, 1939.

## L.K. Accidents

LONDON, May 7.—(Reuters)—

During March 230 persons were killed and 10,684 were injured in road accidents in Britain, the transport ministry announced.

A home at last! You have the key, you can move in now. After weary months of searching this is a big moment.

To cap moments like this, in fact, anytime, anywhere, there is nothing like a Sweet Cap!

## As a Prosecution Witness

## General Simonds May Testify At Trial of Brig. Lister

By WILLIAM BOSS

AMSTERDAM, May 9.—(CP)—Lt.-Gen. Guy Simonds of Kingston, Ont., and Winnipeg who commanded the Canadian Army force in the Netherlands, may be called as a prosecution witness in the Canadian Army court martial of Brig. J. P. A. Lister of Victoria and Quebec Lt.-Col. Bruce MacDonald of Windsor, Ont., chief prosecutor, told the court yesterday.

COL. MACDONALD said his decision to call Gen. Simonds came after a number of references to him had been made in defence evidence. Brig. Lister is charged with missing requisitioned premises in The Netherlands, with converting public property in the form of food and coal to his own use, and with utilizing for his own use the services of four Dutch civilians paid from public funds. A fourth charge, that Brig. Lister fraudulently misemployed public property by causing food and coal to be delivered to his residence in Amsterdam, was dropped.

Notice will be served on Gen. Simonds today and he probably will appear here Friday. He now is en route to the United Kingdom.

At yesterday's session Brig. Lister testified for 2½ hours. He spoke of his suspension last January by Gen. Simonds from his duties as chief-of-staff of the Canadian army force in the Netherlands and added: "I was dumbfounded and absolutely furious when Simonds suspended me. I became convinced that reliable information implicated me in the alleged appearance of Canadian army wines and spirits on the Dutch black market."

THE BRIGADIER said Lt.-Gen. C. O. Montague's recent court of inquiry "completely exonerated me of any such suggestion and what is much worse, there never has been any reliable information."

In using requisitioned premises in Amsterdam he said he "followed the lead of others," such as Maj.-Gen. E. L. Tomney, Brig. W. G. Westwood, Que., one-time commander of the 1st Canadian corps in Italy and at present rehabilitation hospital in the department of veterans affairs.

He testified he obtained the Amsterdam headquarters to get a billet which would provide him with a complete break from army life. He said he had been on the verge of a nervous breakdown toward the end of July, 1945.

He testified he also used the flat as a headquarters from which to supervise army welfare activities generally.

Photographs were submitted by the defence of a "very large and luxuriously furnished home" occupied by Gen. Simonds and his two aides-de-camp outside Apeldoorn.

BRIG. LISTER said his civilian staff included three highly-qualified chefs and four or five gardeners, all paid from public funds. He also testified that Gen. Simonds had the best suite in the Amstel hotel, Amsterdam, permanently reserved.

MR. HART, returning from the Dominion-provincial conference, told reporters that British Columbia was fully prepared to accept a compromise agreement for a three-year period at the Dominion-provincial conference and every effort was made to prevent the Ottawa meeting from ending in failure.

What the future held for British Columbia in taxation he was not prepared to say. Asked if he thought the conference would be reconvened he said: "That's the 99th question."

Radio Gold-Digger Busy With Shovel

YELLOWKNIFE, Y.T., May 9.—(CP)—Herbert L. Hollander, Los Angeles, unique goldseeker, was digging for a nugget on the new Salmia gold field yesterday when he found the \$1,000 he'll collect if he finds it. His actual spadework at the new goldmine eluded him as he dug for a radio show he was assigned to bring back a sample of gold from the north's newest gold camp by May 16. He'll get \$1,000 if he completes the "consequence" assignment and if not he'll have had the trip at the radio show's expense.

Claim Difficulties Can Be Overcome

MOSCOW, May 9.—(AP)—Difficulties blocking progress of the foreign ministers' council could be overcome by goodwill, Tass said today in a Paris dispatch. "The difficulties are connected with an obvious lack of desire on the part of the American and English delegations to understand that one should not try to enforce his will on other participants in negotiations," the official Soviet news agency asserted.

Atlantic Airmail Flights Increased

OTTAWA, May 9.—(CP)—Weekly trans-Atlantic airmail flights have been increased from four to five, postal officials announced here yesterday. Flights now leave Doral, Que., Monday, Wednesday, Thursday, Friday and Saturday at 12 p.m.

First Reading For British Loan Bill

OTTAWA, May 9.—(CP)—The Senate gave first reading yesterday to a bill for the \$1,250,000,000 loan to Britain. Debate on second reading is expected to start Thursday.

Plan Addition To Banff Park

OTTAWA, May 9.—(CP)—The Commons yesterday gave first reading to a bill introduced by R. J. Macdonald, M.P., which would add small areas to Banff Park and Riding Mountain Park.

Name Commander In London Parade

LONDON, May 9.—(CP)—Lt. Col. D. C. Cameron, DSO, of Cornwall, Ont., officer commanding the 3rd Sturmont, Dundas and Glen gary Highlanders, will command the Canadian contingent marching here yesterday in the Empire parade June 8. It was announced at Canadian military headquarters last night.

Sees Disintegration Of British Empire

SYDNEY, Australia, May 9.—(CH)—Gen. Sir Thomas Blamey, wartime commander of Australian forces in the Middle East, expressed opinion today that Britain's decision to withdraw her forces from Egypt would have a "disintegrating effect" on the Empire.

He said it is impossible to believe that Britain really intends to abandon control of the Eastern Mediterranean. Gen. Blamey said: "If the proposal is carried out to its indicated conclusion... we will be entering upon a new phase in Empire history, because the strategic unity of Empire relations is centered around this canal zone."

Australian newspapers voiced editorial concern over Britain's decision.

The Melbourne Herald said "negotiations on the future defence of the Suez canal will be watched with anxiety by Australia and New Zealand."

Plan Withdrawal Of Egypt Troops

CAIRO, Egypt, May 9.—(AP)—Negotiations for the withdrawal of British forces from Egypt, the crossroads of the British Empire, began today in the police-guarded Egyptian foreign ministry.

RELIABLE SOURCES said the British delegation was asking one year in which to get British forces out, while Egypt was urging that the withdrawal be completed in six months.

In the background was the declaration to the Egyptian parliament yesterday by Premier Ismail Sidki Pasha that he was willing to negotiate terms of a mutual assistance pact with Britain, one of the conditions of which was the withdrawal of her military, naval and air forces.

THE PREMIER ALSO told parliament Egypt would make armed forces and facilities, including the right of passage through her territory available to the United Nations in accordance with the San Francisco charter.

Sidki Pasha expressed confidence in the sincere desire of Britain and Egyptian delegations to work for complete independence of the Nile kingdom.

THE PREMIER ALSO told parliament Egypt would make armed forces and facilities, including the right of passage through her territory available to the United Nations in accordance with the San Francisco charter.

Sidki Pasha expressed confidence in the sincere desire of Britain and Egyptian delegations to work for complete independence of the Nile kingdom.

## New Lacombe S.D. To Get 60 Schools

Exclusive to The Edmonton Bulletin

LACOMBE, May 9.—Probably 60 rural schools will be contained in the new Lacombe school division, formation of which was announced earlier this week by Hon. R. Earl Ansley, provincial minister of education, it is believed here.

Decision to form the new division followed a recent meeting with representatives of the Municipal District of Lacombe and the school boards of the district. Boundaries will coincide with those of the Lacombe district, including sections of Red Deer, Stettler, Ponoka and Rocky Mountain House school districts. It is expected that formation of the division will be completed by January, 1947, technically at least.

School boards affected by the change may now go ahead with plans under the new scheme, Mr. Ansley said.

## Sees Fuel Crisis Coming in Winter

OTTAWA, May 9.—(CP)—Prospects of a fuel shortage in Canada this winter are "most alarming," said a statement issued by the Minister of Reconstruction, Mr. Howie, said yesterday in the Commons.

Mr. Howie, discussing conditions arising from the strike of soft coal miners in the United States, said the resulting shortage would seriously affect coke supplies for domestic heating next winter. In addition, anthracite supplies would be below last year's when there was a shortage of hard coal.

On next winter's outlook Mr. Howie commented:

"I THINK THE HOUSE may as well know that the prospects of a domestic fuel next winter are more alarming than at any time during the last several years."

"The coal controller is attempting to meet the situation in every way possible, by increasing shipments from Western Canada of coal suitable for domestic use, by conserving all possible production of coke for domestic use, and by attempting to procure a sufficient supply of substitute fuels."

Mr. Howie said from his own point of view he has been alarmed about the coal situation in other years at this time of year, but the situation as regards domestic coal for next winter that I have been at any time during the war years. All I can say is that the government will bend every effort to obtain fuel for its citizens next winter."

## Tax Delinquency Letter Protested

OTTAWA, May 9.—(CP)—Revenue Minister McCann agreed yesterday in the Commons to record a form letter dealing with the prosecution of income tax delinquents.

The matter was brought to the attention of the house by John Diefenbaker (PC—Lake Centre), who read one such letter stating that "under no circumstances" was a delinquent, then before the courts, to be jailed except on the authority of the deputy minister of national revenue for taxation.

MR. DIFENBAKER protested against the placing of such power in the hands of a deputy minister. Yesterday, Dr. McCann said Mr. Diefenbaker had entirely misinterpreted the paragraph, which was aimed at precluding any "drastic action" by the department's legal agent without careful study with the government. The minister said it would be levied to make clear that the department did not wish to see a delinquent jailed without careful review.

## Resume Traffic Over Hull Bridge

OTTAWA, May 9.—(CP)—Montreal-bound, a regular Canadian Pacific Railway passenger train resumed the Royal Alexandra bridge between Ottawa and Hull last night and simultaneously resumed traffic across the bridge.

It was an Irish Republican army man who came to Ulster to "embarrass our war effort" and to "kill people."

McCaughey, reported "very weak" on his 20th day of fasting, refused to eat until he dies or is released from prison.

45 Out of 1,560 Survived Sea Fight

LONDON, May 9.—(CP)—Only four officers and 41 ratings of 1,560 aboard survived the sinking in action of the aircraft carrier Glorious and the escorting destroyers Acasta and Ardent six years ago off the coast of Norway, the Admiralty disclosed yesterday. The ships were sunk June 8, 1940, when fighting the German battle cruiser Scharnhorst and Gneisenau.

Going to U.S.

LONDON, May 9.—(Reuters)—Herbert Morrison, Lord President of the Council, will leave Saturday for Washington for his talks with President Truman. He will discuss food situation, political quarters said today.
